Appendix

Certified Public Accountant (CPA)

The Certified Public Accountant (CPA) is a professional designation for licensed accounting professionals. CPAs are licensed and regulated by their state Boards of Accountancy. While state laws and regulations vary, the education, experience, and testing requirements for licensure as a CPA generally include: a bachelor's degree in business administration, finance, or accounting, in addition to having completed 150 hours of education; a minimum of two years of public accounting experience; and successful passage of the Uniform CPA Examination® ("CPA Exam"). The CPA Exam comprises four sections: auditing and attestation, business environment and concepts, financial accounting and reporting, and regulation.

In order to maintain a CPA designation, states generally require completion of continuing professional education (hourly requirements vary by state). Additionally, all American Institute of Certified Public Accountants (AICPA) members must adhere to a rigorous Code of Professional Conduct, which requires that they act with integrity, objectivity, due care, competence, fully disclose any conflicts of interest (and obtain client consent if a conflict exists), maintain client confidentiality, disclose to the client any commission or referral fees, and serve the public interest when providing financial services. The vast majority of state boards of accountancy have adopted the AICPA's Code of Professional Conduct within their state accountancy laws or have created their own. For more information, refer to the AICPA website at: <https://www.aicpa.org/home>.

Uniform Investment Adviser Law Examination (Series 65 Exam)

The Uniform Investment Adviser Law Examination (Series 65 exam) is a North American Securities Administrators Association (NASAA) exam administered by the Financial Industry Regulatory Authority, Inc. (FINRA). The exam consists of 130 scored questions. Candidates have 180 minutes to complete the exam. In order for a candidate to pass the Series 65 exam, the individual must correctly answer at least 94 of the 130 scored questions. For more information, refer to the NASAA website at: <https://www.nasaa.org/exams/>
