Item 7 – Part 2B Appendix 1

CERTIFIED FINANCIAL PLANNER™ (CFP®)

The CERTIFIED FINANCIAL PLANNER™ (CFP®) is a professional certification awarded by the Certified Financial Planner Board of Standards, Inc. (CFP Board). The CFP® certification is a voluntary certification; no federal or state law or regulation requires financial planners to hold this certification. It is recognized for its rigorous education and training requirements, high standard of professional education, stringent code of conduct and standards of practice, and ethical requirements that govern professional engagements with clients.

To attain the right to use the CFP® certification, an individual must satisfactorily fulfill the following requirements:

- *Education* – The two-part education requirement includes both completing college- or university-level coursework on financial planning through a CFP Board Registered Program and holding a bachelor's degree or higher (in any discipline) from an accredited university. The coursework includes topics on professional conduct and regulation, general principles of financial planning, risk management and income planning, estate planning, psychology of financial planning, and financial plan development.
- *Examination* – Candidates for the CFP® certification must pass the CFP® exam, which tests the individual's ability to apply financial planning knowledge to real-life situations and ensures that the candidate is highly qualified to develop a holistic plan for clients' finances. The exam is a 170-question, multiple-choice test that consists of two 3-hour sessions over one day. The exam includes stand-alone and scenario-based questions, as well as questions associated with case studies.
- *Experience* – The experience requirement prepares candidates for the CFP® certification to provide personal financial planning to the public without supervision. Individuals may fulfill the experience requirement either before or after taking the exam. Candidates must complete either 6,000 hours of professional experience related to the financial planning process or 4,000 hours of apprenticeship experience that meets additional requirements.
- *Ethics* – The ethics requirement indicates that candidates for the CFP® certification have agreed to adhere to high ethical and professional standards for the practice of financial planning and to act as a fiduciary when providing financial advice to their clients.

Individuals who obtain the CFP® certification must also complete the following ongoing education and ethics requirements in order to maintain the right to continue to use the CFP® marks:

- *Continuing Education* – Individuals must complete 30 hours of continuing education hours every two years, including a two-hour, CFP Board-approved ethics course.
- *Ethics* – Individuals must complete a Renewal Application annually, which includes an agreement to be bound by the CFP Board's "Code of Ethics and Standards of Conduct." These require that the CFP® professional provide financial planning services as a fiduciary and in the best interest of their clients.

CFP® professionals who fail to comply with the above standards and requirements may be subject to the CFP Board's disciplinary process, which could result in suspension or permanent revocation of the CFP® certification. For more information, refer to the CFP Board's website at: <https://www.cfp.net/>.
